

# CURRENT MARKETS WITH DR. ELDER

12.05.2021 - 19.05.2021

Veebiseminar

You are invited to an interactive private class in Dr. Elder's trading room. Log in from your computer and follow Dr. Elder as he reviews current markets. Learn his decision-making process – where and when to buy or sell short, set price targets and stops. Ask him to analyze stocks or futures that interest you (preferably email ahead of the class).

An exclusive additional feature: every weekend Dr. Elder scans all the component stocks of the S&P500 using his Semi-Automatic MACD Divergence Scanner as well as Force Index Extremes Scanner. He then visually reviews all the automatic finds and marks those that look attractive to him. Only webinar participants receive those lists, along with brief market comments every Sunday.

Each monthly webinar consists of two sessions, usually a week apart. Each session begins with a review of 14 key international markets, followed by 11 US industry super-groups, followed by the key US indexes. After analyzing them Dr. Elder summarizes his findings, delivers his current market outlook and turns his attention to specific stocks, indexes and futures requested by webinar participants.

You receive answers: there is a vast difference between general public meetings and these private webinars. Public presentations may have hundreds of persons, but here you receive individual attention. We keep the number of participants small, to allow you to communicate directly with Dr. Elder.

Next webinar: **May 12 & 19, 2021 at 6:00PM ET**

We generally offer a webinar once a month. Each webinar consists of two sessions on weekday evenings, a week apart. We start at 6 pm ET and continue for an hour or longer. You see Dr. Elder's computer screen and hear his voice. We record these webinars, and the next morning send you a free link to the latest recording – whether you were there in person or not.

## Cost:

- 129 euros per webinar (two sessions, including their recordings)
- 321 euros for three month (save 66 euros)
- VAT (20%) will be added to the prices
